1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Implemented Investment Solutions Limited ('Implemented Investment Solutions', 'we', 'us' or 'our') will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Implemented Investment Solutions and of its investment manager and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Fund	Description	Risk Indicator*	Annual Fund Charges (Estimated, % of the Fund's net asset value)	Buy/Sell Spread (of each investment /redemption)											
APN AREIT PIE Fund	The Fund invests in an Australian Unit Trust ('Underlying Fund') managed by APN Funds Management Limited ('APN'). The Underlying Fund invests in Australian Real Estate Investment Trust ('AREIT') shares. The Fund targets a position of being fully hedged back to the New Zealand dollar.	<table border="1"> <tr> <td colspan="2">Lower risk/ Potentially lower returns</td> <td colspan="2">Higher risk/ Potentially higher returns</td> </tr> <tr> <td>1</td> <td>2</td> <td>3</td> <td>4</td> <td>5</td> <td>6</td> <td>7</td> </tr> </table>	Lower risk/ Potentially lower returns		Higher risk/ Potentially higher returns		1	2	3	4	5	6	7	1.10% (excl. *Note: Market index returns, adjusted for currency hedging returns, for the 5 years to 31 December 2016, have been used to determine the risk indicator as the Fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the Fund's future volatility.

See section 4 of the PDS, "What are the risks of investing?" on page 7 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the APN Investment Funds Scheme?

The manager of the APN Investment Funds Scheme is Implemented Investment Solutions.

See section 7 of the PDS, "Who is involved?" on page 10 for more information.

What are the returns?

The return on your investment comes from:

- Any increase or decrease in the unit price, and
- Any income distributions made from the Fund.

We expect to make monthly distributions. You can elect for your distribution to be reinvested in the Fund. If you do not make a distribution election the default option is reinvestment.

See section 2 of the PDS, “How does this investment work?” on page 5 for more information.

How can you get your money out?

Investments in the Fund are redeemable on request.

We may defer redemptions in certain circumstances set out in the Trust Deed if we in good faith determine this is in the general interests of all investors in the Fund.

We may also suspend redemptions in certain circumstances set out in the Trust Deed if we in good faith form the opinion that it is not practicable, or would be materially prejudicial to the interests of the Fund’s investors to realise assets or borrow to permit Unit redemptions.

See section 2 of the PDS, “How does this investment work?” on page 5 for more information.

Your investment in the Fund can be sold but there is no established market for trading this financial product. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

The Fund offered under this PDS is a portfolio investment entity ('PIE').

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate ('PIR'). To determine your PIR go to www.ird.govt.nz/toii/pir/.

See section 6 of the PDS, “What taxes will you pay?” on page 10 for more information.

Where can you find more key information?

Implemented Investment Solutions is required to publish quarterly updates for the Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.iisolutions.co.nz. The manager will also give you copies of those documents on request.

2. How does this investment work?

This document is an offer to purchase units ('Units') in the Fund. The Fund is a trust which is established within the Scheme and governed under a trust deed dated 1 December 2016 ('Trust Deed').

The money you invest buys Units in the Fund. The Fund invests in assets such as cash and interests in an Underlying Fund. APN Funds Management Limited ('APN') is the investment manager of the Fund and is responsible for investing and managing the Fund's assets. Units represent a share of the Fund. Changes in the value of the assets of the Fund and will be reflected in the value of the Units.

The price of each Unit you receive depends on the value of the Fund at the time you invest and the buy spread that applies to the Fund. We calculate the Unit price for the Fund by subtracting the total value of the Fund's liabilities from the market value of its assets and dividing that number by the number of Units the Fund has issued. The Unit price is calculated daily.

A change in the value of the Fund's assets affects the price of your Units. The Unit price for the Fund will change as the market value of the Fund's assets changes.

Public Trust is the supervisor ('Supervisor') of the Scheme and, in that role, monitors and supervises our management of the Fund.

The significant benefits of investing in the Fund are:

- **Diversification and scale.** By pooling the money of all investors in the Fund, we can give investors exposure to a more widely diversified portfolio of underlying assets than they may be able to access themselves. This increased diversification can reduce risk.
- **Professional investment management.** APN is the investment manager for the Fund. APN has the ability to appoint other investment managers.
- **Independent oversight and custody of assets.** The Supervisor has appointed an independent custodian, BNP Paribas Fund Services Australasia Pty Limited, to hold the Fund's assets.

The return on your investment comes from:

- Any increase or decrease in the Unit price, and
- Any income distributions made from the Fund.

We expect to make monthly distributions for the Fund. We expect to pay distributions within 10 business days of the end of the month. You can elect for your distributions to be reinvested in the Fund. If you do not make a distribution election the default option is reinvestment.

The assets of the Fund are not available to be applied to meet the liabilities of any other fund in the Scheme established in the future.

Making investments

You can make lump sum or regular investments into the Fund. We may, in our absolute discretion, refuse any application without giving any reason. If we refuse your application, your application payment will be returned to you in full, without interest.

The minimum initial investment for the Fund is \$1,000. Thereafter, the minimum additional investment is \$500. These minimum amounts may be varied or waived at our discretion.

Withdrawing your investments

You may request redemption of some or all of your investment at any time. Payment will be made as soon as possible after processing the redemption request and in any event within 30 business days of our receiving a redemption request from you. However, we may suspend withdrawals from the Fund if we decide to close the Fund or in other circumstances where we believe that allowing investors to take their money out would not be workable, or would prejudice investors generally. A suspension can last up to six months. If withdrawals are suspended and you submit a withdrawal request, we will not process it until the suspension is lifted.

When you redeem all or part of your investment from the Fund, we will redeem your investment at the Unit price for the Fund, adjusted for the applicable sell spread for the Fund.

We reserve the right to refuse a redemption request for less than 500 Units or a redemption request that would result in you holding less than 500 Units (except where all of your Units are to be redeemed).

3. Description of your investment option

Fund	Summary of investment objectives and strategy	Who is the Fund suitable for?	Target investment mix	Risk category	Minimum suggested investment timeframe

We can make changes to the Statement of Investment Policy and Objectives ('SIPO') of the Fund in accordance with the Trust Deed and the Financial Markets Conduct Act 2013 ('FMC Act'). Before making changes to the SIPO, we will consult with Public Trust, as the Scheme's Supervisor. Any changes to the SIPO will be advised in the annual report for the Scheme. The most current SIPO for the Fund can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

Further information about the assets in the Fund can be found in the fund updates at www.iisolutions.co.nz.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Lower risk/ Potentially lower returns						Higher risk/ Potentially higher returns
1	2	3	4	5	6	7

See page 2 for the risk indicator for the Fund offered under this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading "Other specific risks") that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 December 2016. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for this Fund (once available).

General investment risks

Some of the things that may cause the Fund's value to move up and down, which affect the risk indicator, are:

Market and security specific risk

The key risk for the Fund is that prices of the underlying securities fluctuate. Price fluctuations are generally attributable to a combination of:

- Market risk, and
- Security specific risk.

Factors that underpin market risk include expectations for economic growth, investor sentiment, interest rates and inflation. Market factors impact on all shares.

Security specific risk refers to factors that are particular to each stock or security. Examples of security specific risk include the level of company debt and the demand for a company's particular products or services. Additionally investor sentiment is one of the factors that will influence stock specific risk.

Liquidity risk

The Fund is exposed to liquidity risk.

Low liquidity is a risk, as it can reflect the lack of demand for an investment, and make that investment harder to sell in a timely manner. This may affect returns if there is insufficient time to wait for demand to increase and a sale is required to be made at a lower price.

Property Risk

The Fund invests in companies that are exposed to the property markets. These markets can be adversely affected by property-specific factors such as the supply/ demand balance of property assets, legislation relating to property and economic conditions.

Further general information on risks is contained in the document “Other Material information” which can be found on the offer register at www.companiesoffice.govt.nz/disclose.

Other specific risks

Currency risk

The Fund’s units are denominated in New Zealand Dollars and the Fund invests in an Underlying Fund denominated in Australian dollars. The Fund mitigates this currency risk by entering into hedging arrangements that are designed to reduce the risk that currency movements will impact the Fund valuation in New Zealand dollar terms. However, the Fund may remain exposed to some currency risk due to not being fully hedged. The impact of any remaining currency exposure on Fund volatility is expected to be immaterial as Fund volatility is expected to be largely driven by the volatility of the Underlying Fund.

Tax Risk

The Manager intends to apply the Fair Dividend Rate (FDR) method for calculating taxable income from currency hedging. This method is able to be applied if the hedging is operated in accordance with the FDR hedging rules. If these rules are breached then the PIE income attributable to investors may be higher than planned which may reduce investor returns. The impact on taxable income is driven by the return from currency hedging which is largely attributable to the difference between New Zealand and Australian interest rates. A breach of the FDR hedging rules is unlikely as the hedging will be managed by an experienced, specialist provider and monitored independently each day by the custodian.

5. What are the fees?

You will be charged fees for investing in the Fund. Fees are deducted from your investment and will reduce your returns. If we invest in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term:
- one-off fees (for example the buy spread on applications and the sell spread on withdrawals).

Annual fund charges (% of net asset value)

Name of the Fund	Total Annual Fund Charges
APN AREIT PIE Fund	1.10%

Management fees - We charge a fixed annual management fee to the Fund of 1.10% excluding GST. The management fee includes all normal day-to-day fund costs and expenses including the following:

- the management fee and the investment management fee paid to APN;
- any investment management fees of any related underlying funds the Fund invests in;

- the Supervisor fee;
- costs and expenses incurred by us, the Supervisor and the investment manager in carrying out each of our respective duties (including the fees charged by solicitors, valuers and other advisers);
- bank account charges applicable to the Fund; and
- costs for administration services, including Unit registry, asset registry, Unit pricing and investment accounting costs and costs associated with the provision of financial information related to the Fund.

The management fee does not include any extraordinary expenses such as costs of any litigation or unitholder meetings. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. This percentage may change in the future.

The Fund invests in an Underlying Fund managed by APN. There is no charge to the Fund for this investment.

Other charges

If APN is removed as an investment manager of the Fund (other than as a result of APN's breach of the Investment Management Agreement), APN will be entitled to compensation out of the assets of the Fund for loss of office an amount equal to two years' investment management fees plus certain costs and expenses as further described in the Trust Deed. The investment management fee is equal to the Total Annual Fund Charges less the costs of operating the fund including those costs listed above under the heading "Management Fee". The amount can be estimated by referring to the Fund's financial statements published at www.companiesoffice.govt.nz/disclose.

Individual action fees (% of amount contributed or withdrawn)

Name of the Fund	Buy spread	Sell spread
APN AREIT PIE Fund	0.25%	0.25%

Buy/sell spreads - When you enter or leave the Fund, any buy or sell spreads applicable at that time will be a cost to you. The buy spread is added to the Unit price on entry to the Fund, and the sell spread is deducted from the Unit price on exit from the Fund. The buy/sell spreads belong to the Fund and are not fees paid to us or any investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the Fund are borne by that investor, and not by other investors in the Fund. There is no GST charged on buy/sell spreads.

The buy/sell spreads at the date of this PDS are set out in the table above.

There are no other one-off fees currently being charged to any of the Fund offered under this PDS.

Example of how fees apply to investors

Anthony invests \$10,000 in the APN AREIT PIE Fund. A buy spread of 0.25% is incorporated in the Unit price that he pays for his investment. This equates to \$25.

This brings the starting value of his investment to \$9,975.

He is also charged management and administration fees, which work out to about \$110 (1.10% of \$9,975). These fees might be more or less if his account balance has increased or decreased over the year.

Estimated total fees for the first year

Fund charges: \$110.
Individual action fees: \$25.

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

The fees can be changed

We can change fees from time to time. We can also add new fees by giving you at least three months' notice. We may waive or decrease the management fee without notice. We may increase the management fee but must give you at least 3 months' notice before doing so. The rules about fee changes are in the Trust Deed, which can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

Implemented Investment Solutions must publish a fund update for the Fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at the offer register at www.companiesoffice.govt.nz/disclose.

6. What taxes will you pay?

The Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate ('PIR'). To determine your PIR, go to <http://www.ird.govt.nz/toii/pir/>. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell us your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

For more information about tax refer to the 'Other Material Information' document on the offer register at www.companiesoffice.govt.nz/disclose.
