Register your interest for this unique opportunity

ALLAN GRAY
CONTRARIAN INVESTING

Due to adviser demand, we are excited to extend to you the opportunity to join us for a unique Allan Gray study tour and immersion in Cape Town, South Africa.

This tour offers a great opportunity to gain a deeper understanding of our philosophy, business and heritage. You will also attend the Allan Gray Investment Conference and participate in workshops with our own analysts and fund managers as well as South African leading advisers and investment professionals. When time permits, we will also show you some of the highlights of this beautiful city with our very own South African guides.

Agenda and further details won't be finalised until we confirm interest, so please reach out to me today to register. This self-funded tour will be an amazing opportunity and we really hope you can join us.

Questions and answers

How long is the study tour piece of the trip ?
The study tour piece will be three days in total. That's enough time to give you a taste of the city and culture and then you may choose to add on additional days to explore further.

How much is this likely to cost ?
This is a self-funded opportunity. We have however arranged dinners, conference catering as well as corporate accommodation rates.

Can I bring my partner and family ?
Yes of course. They may not be as enthralled in the content and as such we would recommend them joining us for the leisure activities part of the immersion only. Should there be demand, we will look at additional activities.

How do I book the beyond Cape Town tours ?
We are only just gaining interest in the opportunity and once we have confirmed the interest, we will tighten the schedule and provide more information.

Weather
We are in Springtime so average is 21 degrees. The temperature drops at night a little and being on the water it would be wise to take a jacket. Layering is key in Cape Town.

Time zones
GMT +2 or 8 hours behind Sydney.

Currency
Rand is sitting about 11-12 Rand to 1 Australian dollar but it's so much easier to look at the Rand price and simply divide by 10.

Tipping
10% is minimum in restaurants, 15% standard and 20% generous. Be aware that many people don't earn a minimum wage and work for tips. Tourism and service is the main revenue stream for South Africa. Try to get some smaller notes for taxis and baggage handlers etc. It is not 100% necessary to tip in taxis and hotels.
